

Search for patients dispensed oral anticoagulants in RxOne

Go to 'Drug Usage' to create a Patient Drug Usage Report.

The screenshot shows the RxOne Patient Drug Usage Report window. A blue arrow points to the 'Date Dispensed' and 'Date Discontinued' fields, with the text 'Select start and end dates' next to it. The window is titled 'Patient Drug Usage Report' and has tabs for 'Script Details', 'Extra Script Criteria', 'Person Criteria', 'Stock Criteria', and 'Doctor Criteria'. The 'Script Details' tab is active, showing fields for 'Date Dispensed' (18 Aug 2017), 'Date Discontinued' (18 Sep 2017), 'Script Number', 'Start Number', 'End Number', 'Audit Date', 'Date Dispensed', 'Date Discontinued', 'End Date', and 'Stock Type'. The 'Person Criteria' tab is also visible, showing fields for 'Person Details' (All Patients, Selected Patients), 'Additional Fields To Show' (Show Script Comment), 'Residence', 'Stockcard Options' (Supplier, Product Group, Product Class, Stock Type), 'Stock Location' (All), 'Compound/Prop' (All Stockcards), and 'Sort By' (Script Number, Person Name, Doctor Name, Date Dispensed, Drug). The window is part of the 'Patient Drug Usage Report' application, version 2017.8.10.4, running on the 'Viewing Main Database' user 'MARIE'. The status bar shows 'All Sales For Living Rewards for 17 09 17 successfully sent.' and 'Last Backup to DB Master C Drive: 17 Sep 17 9 PM'.

This screenshot shows the same RxOne Patient Drug Usage Report window, but with the 'Date Dispensed' and 'Date Discontinued' fields highlighted in yellow. The 'Date Dispensed' field is set to '18 Aug 2017' and the 'Date Discontinued' field is set to '18 Sep 2017'. The rest of the window, including the tabs and other fields, is identical to the previous screenshot. The status bar shows 'All Sales For Living Rewards for 17 09 17 successfully sent.' and 'Last Backup to DB Master C Drive: 17 Sep 17 9 PM'.

Select what you would like to export

Then delete any prescriptions that don't include warfarin, dabigatran or rivaroxaban so you can find 10 relevant patients to randomise for audit.

Interventions can be recorded in the 'Events Audit' section where you can record face-to-face or phoned conversations, or insert comments.
